

BRAND GUIDELINES

ABOUT

About Us

Since 2012, Whiffletree Farm & Nursery has been proudly owned and operated by brothers Lawrence and Lowell Martin, along with our dedicated families.

Nestled just north of Kitchener/Waterloo, Ontario, near the quaint town of Elmira, our family-run business is rooted in a deep passion for sustainable farming and nurturing the environment.

Our Mission

Our mission is simple: to inspire and support our community in their gardening and farming endeavors. We strive to offer a diverse selection of plants and trees that are not only beautiful but also well-suited to our local climate and conditions.

Whether you're a seasoned gardener or just starting out, we're here to help you every step of the way.

Our Values

We are dedicated to sustainable farming practices that respect the land and promote a healthy ecosystem. We believe in the importance of community and the power of working together to create a greener, more beautiful world.

As a family-owned business, we understand the value of family and strive to create an environment where families can learn, grow, and thrive together.

LOGO USAGE

The Whiffletree Farm & Nursery Logo contains the entire company name, along with a representation of an actual “whiffletree” - the farm implement that was traditionally used to rig farming equipment to work horses.

The logo is most commonly used isolated on a white background. On dark backgrounds, it uses a white outline. In some cases, on a lighter background a version can be used without the white outline (as on the cover of this guide).

Space must always be given to the logo so that it is legible and not crowded. The “M” in farm from the logo can be used as a rough guide for the minimum amount of space that should be given to the logo.

The logo should not be represented smaller than approximately 1” in width, where the company name can still be easily read.

Alternate uses of the logo can be used in an informal setting, see next page for examples.

ALTERNATE LOGO USAGE

In some less formal or more unique cases, there are some variations of the logo that can be used. A black and white version as well as the small version has been used on apparel or other products.

The “W” in the logo has been used by itself as an icon, or with the company name in cases where a smaller, easily legible version is needed. It has also been used as a design element in many different ways.

Common backgrounds used for the logo in advertising and print include a distressed paper or old barn board background (see previous page for examples).

TYPOGRAPHY

Whiffletree uses classic typefaces that strengthen an image of quality, dependability, and traditional practicality. For print, where possible, a serif font should be used for most body text. In many cases though, a sans-serif has been used as these publications are also viewed on screen, where more delicate serifs can cause legibility issues at small sizes.

A hand-written style font has also been used for titles and headings.

A slab-style font similar to what has been used in the logo has been used, rarely, in some unique circumstances.

Please use these typefaces when possible, or similar in cases where the exact font can not be used (such as web and social media).
